Derabassi, Punjab

Software Developer

Software Developer with 2 years 10 months of experience, including 1 year of internship and 1 year 10 months of full-time experience in web and application development using HTML, CSS, JavaScript, React.js, PHP, Symfony, CodeIgniter and Laravel. Skilled in working with databases, APIs, and cross-functional teams. Currently pursuing an MBA in Cybersecurity to strengthen expertise in secure software development.

Experience

Software Developer (Full-Time)

SchoolPad Technologies(Sister-ConcernCompany of Code Brigade) • Mohali, Punjab

04/2025 - 04/2026

- Developing and maintaining web applications to support school management systems.
- Collaborating with cross-functional teams to design scalable software solutions and working across multiple PHP frameworks.
- Working with modern frontend and backend technologies for enhanced user experiences.
- Utilized AI-powered tools such as ChatGPT and GitHub Copilot for code generation, debugging, and optimizing development workflows, resulting in faster development and improved code quality.

Software Developer (Full-Time)

CodeBrigade • Mohali,Punjab

07/2024 - 03/2025

- Transitioned from intern to full-time role based on performance and technical contributions.
- Contributed to multiple projects using HTML, CSS, JavaScript, React.js, PHP.
- Implemented responsive design, optimized site performance, and managed backend integrations.

Software Developer Intern

CodeBrigade • Mohali,Punjab

06/2023 - 06/2024

- Worked on real-time web development projects, gaining hands-on experience in full-stack development , worked on bug fixing and UI improvements.
 - Learned project lifecycle management and improved coding best practices.
-

Technical Skills

- Frontend: HTML, CSS, JavaScript, AJAX, React.js
 - Backend: PHP
 - Framework: Symfony, CodeIgniter, Laravel
 - Database: MySQL
 - AI Tools & Productivity: ChatGPT, GitHub Copilot, Codex, Antigravity.
 - Tools & Others: Git, GitHub, GitHub Desktop, Postman, VS Code, etc.
-

Education

MBA

ChitkaraUniversity • Rajpura, Mohali

08/2026

B.Tech (Computer Science Engineering)

Chitkara University • Rajpura, Punjab

08/2024

CGPA: 9.46

Grade: 12th

Mount Carmel School • Chandigarh

03/2020

Percentage: 84%

Projects

1. Alumni & Institution Data Management Portal (AlmaCircle): Code Brigade (Internship)

- Developed and maintained a web portal to manage alumni and educational institution data.
- Built features for data entry, reporting, and user authentication using React.js, PHP, and MySQL.
- Improved usability and performance by optimizing front-end components and backend queries.
- Contributed to a cleaner UI and better data flow through active team collaboration.

2. School Management System (SchoolPad) – Examinations, Pre-Admissions & Dashboard Modules: Code Brigade / SchoolPad (Full-Time)

- Worked on core modules of a full-fledged school management system used by 300+ educational institutions.
 - Implemented pre-admission workflows, including enquiry forms and student admission management.
 - Developed and optimized the Dashboard Module, providing real-time insights such as student statistics, admission trends.
 - Built and enhanced features in the Examinations Module, including reports, result processing, and performance analytics.
 - Integrated APIs and databases to automate report generation and enhance overall data accuracy.
 - Focused on secure coding practices and ensuring a smooth user experience for admins, teachers, parents and students.
-

Certifications

- Laravel Framework Certification – Coursera
 - WordPress Development Course – Coursera
-

Volunteer Work

1. Campus Ambassador (2 Months)
 2. Social Media Intern (2 Months)
 3. Digital Marketing
